

# Download File PDF Answers For 2 Science Packet

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Answers to Review Packet titled: RESENTS EARTH SCIENCE- Earth History Review

- 21. 1 (erosion removes part of the rock record this is called an unconformity)
- 22. 1 (usually things are split and then eroded)
- 23. 2 ( no fossils are shown in the diagram)
- 24. 3 (we use fossils to learn about evolution)
- 25. 2 ( use color to correlate)
- 26. 2 ( whenever layers are missing it is evidence that erosion happened)
- 27. 3 ( look under life under earth, the Permian period is part of the Paleozoic era)
- 28. 1 ( use p. 3 in ESRT to find the age of each city. ( Syracuse is Silurian, Oswego is Ordovician, Ithaca is Devonian, Old Forge is Missisquoi, so it can have fossils. Use the ge. history of NY chart to pick that Syracuse had the earliest land plants (terrestrial means land))
- 29. You cant answer this because it is from the old ESRT
- 30. 3 (after one half life, you will have 50% stable daughter decay product and 50% unstable radioactive parent material)
- 31. 4 (  $18 \times 10^9$  divided by 4.5  $\times 10^9$  is 4 half lives. so after one half life there will be half of 24g or 12g, half life 2: 12/2 = 6, half life 3: 6/2 = 3 and half life 4: 3/2 = 1.5g)
- 32. 4 ( both existed in the Quaternary period, flower plants still exist)
- 33. 2 (must be between the Ordovician and the Permian, and must have shales)
- 34. 2 ( need to compare the existence and extinction of each)
- 35. 4 (needs to fall in the Ordovician time period between 444 and 488)
- 36. 4 (fossils are rarely found from the Precambrian because there was no life in the Precambrian)
- 37. cant answer this based off old ESRT
- 38. 3 ( Three half lives have been completed  $3 \times 1.3 \times 10^9$  )
- 39. 4 ( use bedrock age of Ordovician and look under life on earth)
- 40. 4 (when mammals took over, dinosaurs became extinct)
- 41. 3 (dinosaurs are only in this one of all the other choice)
